

## **Greater Fox Cities Area Habitat for Humanity Concrete Walls Bid Specs**

This bid is for all Habitat New Construction Projects for the entire year. The number of bedrooms is dependent on family size (See the included typical plan). The number of new houses will usually be 13 – 15 projects built throughout the year. A schedule of work showing work dates will be provided at the beginning of each build year for all projects. This allows the contractor to schedule Habitat work well in advance of the date needed.

Contractor must be available at time specified on building schedule to complete work in a timely manner. This schedule will be provided for all houses at the beginning of the year. Concrete flatwork will typically be needed from May – November of each year.

Please bid the included plan on 329 Lisbon Ave., in Menasha. The plan is representative of a typical Habitat House. Habitat on occasion receives donated concrete. Please bid this plan with your company providing the concrete and also as Habitat providing the concrete. Price concrete as the anticipated price of concrete for January 1, 2024.
